

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Chapman's 'Handbook of Birds of Eastern North America,' Second Edition.¹—It is interesting to note that a second edition of Chapman's 'Handbook of the Birds of Eastern North America' was quickly called for, showing not only that a good work is appreciated, but also evincing the strong popular interest in the study of our birds. The second edition is from the same electrotpe plates as the first, from which it differs merely in the correction of a few typographical errors and the addition of an appendix of six pages giving a 'field-key' to about 100 of the more common species, based on their coloration, characteristic habits, notes, and haunts, with a view to their ready identification in the field.—J. A. A.

Stone on the Name *Calliste*.²—Mr. Stone finds that the generic name *Calliste* Boie, 1826, is preoccupied by *Callista* Poli, 1791, and that *Aglaia* Swains., 1827, the next name applied to the birds of this genus, had been previously used for both mollusks and hydrozoans. It appears, therefore that *Calospiza* G. R. Gray, 1840, is the earliest available name for this group of Tanagers.—F. M. C.

Publications Received.—**Baker**, Frank Collins. A Naturalist in Mexico, being a visit to Cuba, Northern Yucatan, and Mexico. 12mo. pp. 145, 41 full-page pls. and cuts in text. Chicago: David Oliphant, 1895.

Barrows, Walter B. and E. A. Schwarz. The Common Crow of the United States. (Bull. No. 6, U. S. Dept. of Agriculture. 8vo. pp. 96, 1895.)

Beal, F. E. L. Preliminary Report on the Food of Woodpeckers. (Bull. No. 7, U. S. Dept. of Agriculture, 1895, pp. 1-33, 1 pl. 3 figs.)

Bendire, Charles. The Cowbirds. (Rep. U. S. Nat. Mus. for 1893, pp. 587-624, pll. iii.)
